

**If a pet food has ever sickened or killed a Pet of yours, a friends,  
or a family members... please read and share with others.**

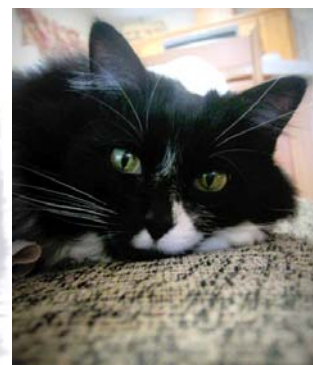

Losing your dog or cat because a pet food was contaminated is one of the worst experiences a Pet Owner can endure. You feel guilty. You feel taken advantage of. You feel alone. Saying good-bye to your dear friend, BECAUSE OF A PET FOOD, is the worst emotional roller coaster ride imaginable.

From the 2007 melamine pet food recall alone, some estimates are as high as 300,000 U.S. and Canadian Pets became sick, died, or are still fighting kidney disease. Countless thousands more Pets have become sick from recalls or silent recalls of tainted pet food since.

**They all mattered to someone;  
They all matter in Vindication.**

**Vindication will Never Forget Them;  
Nor why They Died.**

Vindication is five acres of land at Keystone Lake, Tulsa, OK donated to Pet Owners. Vindication will provide a permanent memorial to Pets that have died or remains ill due to a poisoned/contaminated pet food. Vindication is being groomed into gardens with cascading pathways lined with handmade stones; each stone bears the name of a Pet that has died or remains ill due to a pet food. For the first time in history, there will be a visual count of the deadly effects of tainted pet foods. The land, the garden, the handmade stones are provided by an anonymous Pet Family whose lives were shattered by a poisoned pet food. The five acres of Vindication will remain in trust to Pets and Pet Owners.

No laws have changed, no lawsuits have been settled, none responsible have been jailed. No one has told us how many died or remains sick; no one tells us how many continue to become sick and/or die from new recalls. Countless thousands of Pet Owners have felt they had no ground to stand on, they have been abandoned by the pet food manufacturer and the FDA, alone with the memory of their beloved friend...until now.

Vindication will be an emotional visual display of how deadly pet food has been. The demand for safe pet food will not be denied with these thousands of Pets as our foundation.

If your Pet has become sick or died due to a pet food, please include them at Vindication. Go to [www.TruthaboutPetFood.com](http://www.TruthaboutPetFood.com) click on the Vindication banner on the right.

**There is no charge to any Pet Owner to include their Pet in Vindication.**

Each Pet that has died or remains ill because of a pet food deeply mattered to someone...Each Pet matters in Vindication.
